

THE CANDLE & THE WILDFIRE

Words just seem to fail me now
I wanna share but forgot how
A feeling that lingers on and on
A candle in a darkened home

Though time passes, I can't get You out of my mind
A memory too good to fade
A love too strong

[Chorus 1] 2x

Though all light may die
There's still a candle in the dark
The little flame to guide my way
The tiny fire that keeps my love alive

With You I had a reason to live on
'Cause You brought heat and light into my life

I'd never felt like this before
You were just the spark I needed

[Chorus 2] 2x

All my light had died
But then You came, like wildfire
And You set my heart ablaze
Lit up my days and nights, kept me alive
